

Steel Band Series C201 - 20mm x 0,7mm

The stainless steel banding can guarantee extended service life and attaching under significant mechanical loads. Minimal breaking load is also different depends on the grade of steel.

In order to guarantee the SMFL parameter, the bands of series C201 20 x 0.70 mm AISI 201 are used with the buckle HC-20-T (304).

Technical Specification

- ❖ Width: 20 mm
- ❖ Thickness: 0.70 mm
- ❖ Minimum breaking load (MBL): 7,6kN
- ❖ Laboratory tested breaking force*: > 12kN
- ❖ Weight: 5,5kg
- ❖ Length: 50m
- ❖ Material: Stainless steel
- ❖ Standard: AISI 201
- ❖ Surface Protection: Untreated
- ❖ Color: Natural
- ❖ Box: Frost-resistant polymer

** The parameter "Breaking Force" of the product CA-1500.1 is tested by an accredited inspection body type A.*
